Windev, desktop application development

★★★★★

MR-116   5 Days (35 Hours)

Description

This training will give you mastery of the Windev environment. You will see in detail its different editors and how to use it effectively to program your applications, connect them to databases, design their HMIs to the Windows standard, test them, package them and deploy them.

Who is this training for ?

For whom

Developers. New Windev users.

Prerequisites
