ISO 27002 Manager

★★★★★

SII-361   **3 Days (21 Hours)**

Description

The ISO/IEC 27002 Manager training will allow you to acquire the expertise necessary to support an organization in the implementation and management of information security measures compliant with the ISO/IEC 27002 standard. During this training, you will also gain an in-depth understanding of best practices in information security measures. After understanding all the necessary concepts of information security measures, you can take the exam and apply for the title of "PECB Certified ISO/IEC 27002 Manager". By holding a PECB certification, you will demonstrate that you have the practical knowledge and professional skills to implement and manage information security measures in an organization.
