Sketchup

★★★★★

BPC-136   3 Days (21 Hours)

Description

Sketchup, technical drawing software renowned for its simplicity and efficiency, offers an interesting alternative to the market leader Autocad. It allows you to create 2D plans and 3D objects with ease. This training will provide you with the essential foundations to master Sketchup.

Who is this training for ?

For whom

Technician, designer, design office manager, architect, interior designer, building professional, landscaper, town planner and anyone who uses Sketchup.

Prerequisites

Aucune

Training objectives

- Use Sketchup to draw 2D plans and 3D objects
- Master the tools for drawing and modifying objects, managing standard models

Training program

Bien démarrer avec

- Sketchup Use layers.
- Drawing tools D: line, rectangle, arc, circle...
- Transformation tools D: extrusion.. .
- Modeling tools D: union, subtraction...
- Modeling from a photo.
- Move and modify functions.
- Displacement functions: rotation, translation, symmetry...
- Modification and duplication functions (linear and/or polar network).
