Machine Learning - Foundation

★ ★ ★ ★ ★

SII-132   2 Jours (14 Heures)

Description

Machine Learning has been emerged as the new sensation in the IT industry; this facilitates evaluation, optimization and representation; all of these are the components of the algorithm. The training on Machine Learning Programs help the candidates to excel in their fields & the organizations to cope up with adequate IT needs. The training Programs consist of creating interfaces for maintaining organizational data & Process flow.

À qui s'adresse cette formation ?

Pour qui

Anyone intressed in Machine learning .

Prérequis

Aucune

Les objectifs de la formation

- this formation will prepare you for advanced, research level machine learning papers

Programme de la formation

fundamental concepts and methods in machine learning.

Several important modern algorithms, provides the theoretical underpinnings of these algorithms, and illustrates key aspects for their application.

The authors aim to present novel theoretical tools and concepts while giving concise proofs even for relatively advanced topics.
